

Mendip Caving Group – car parking

There is parking for about 8 to 10 cars (if parked tidily!) inside our gate – the area shaded green in the photo below:

Please do not park on the grass verges on the opposite side of the road from the cottage. The verges belong to Nordrach House, a private residence. Parking on the verges causes damage and understandably upsets our neighbours. And please do not park in front of the field gate adjacent to the cottage. The farmer requires access at all times.

The grass verges and gate access are shaded red in the photo below:

The lorry in the image is parked on hard standing (shaded green), set back from the highway. This is not an official car park. If you can not park on the MCG car park (i.e. inside our gate) you may wish to park on this hard standing AT YOUR OWN RISK and in accordance with the Highway Code.

There is no parking at all on the tarmac main road – note the double white lines.
